**PERMIT AND LICENSE INFORMATION**

<b>PLUMBING PERMIT - INSTALLATION</b>
---------------------------------------

**SUMMARY  
DESCRIPTION  
OF PERMIT**

A plumbing permit is required for all plumbing installations in public buildings and any private residence that is connected to a public water and/or public sewer system to insure that qualified persons properly install the plumbing work.

**INFORMATION  
REQUIRED**

The master plumber or specialist plumber submits a work notice to the regional office indicating the scope of the plumbing work to be done. Inspections may be scheduled to review the work, and other Division inspectors may check to see that properly licensed persons are doing the work.

**WEB ADDRESS**

<http://firesafety.vermont.gov>

**FEES**

The schedule of fees is contained in the Vermont Plumbing Rules and is based on the size and number of plumbing components covered by the permit and whether the work is classified as priority or non priority work.

**APPLICATION  
TIME FRAME**

The applicant may proceed with work after filing the work notice.

**ADMINISTERING  
AGENCY**
